# **Section 5: Fire-Fighting Measures**

**Extinguishing Media** In case of fire: Use dry chemical, carbon dioxide, chemical foam,

or water spray to extinguish.

Use water spray to cool containers.

**Specific Hazards** Aerosols containers may erupt with force at temperatures above

50 °C [122 °F].

The vapors are heavier than air and may accumulate in low-lying areas. Vapors may travel long distances and ignite at an ignition

source, which can cause a flashback or an explosion.

**Combustion Products** Produces carbon oxides (CO, CO<sub>2</sub>).

**Fire-Fighter** Wear self-contained breathing apparatus and full fire-fighting

turn-out gear.

# **Section 6: Accidental Release Measures**

**Personal Protection** See personal protection recommendations in Section 8.

Precautions for Response

Avoid breathing the mist, spray, and vapors. Remove or keep

away all sources of ignition or extreme heat.

**Environmental Precautions** 

Avoid releasing to the environment. Prevent spill from entering

drains and waterways.

**Containment Methods** Not applicable

**Cleaning Methods** Collect liquid in a sealable, solvent-resistant container.

Sprinkle inert absorbent compound onto spill, then sweep into the container. Wash spill area with soap and water to remove

the last traces of residue.

**Disposal Methods** Dispose of spill waste according to Section 13.

# **Engineering Controls**

**Ventilation** Keep airborne concentrations below the occupational exposure

limits (OEL).

# **Personal Protective Equipment**

**Eye protection** Wear appropriate protective eyeglasses or chemical safety

goggles.

**RECOMMENDATION:** Ensure that glasses have side shields for

lateral protection.

**Skin Protection** For likely contacts, use of protective butyl rubber or other

chemically resistant gloves.

For incidental contacts, use nitrile or other chemically resistant

gloves.

#### **Respiratory Protection**

For over-exposures up to  $10 \times OEL$  of mist, vapors, spray, wear respirator such as a half-mask respirator with organic vapor cartridges.

Above 10 x OEL, use a positive-pressure, air-supplied respirator or a self-contained breathing apparatus.

**RECOMMENDATION:** Consult your local safety supply store to ensure that your respirator has a NIOSH (U.S.) approved filter cartridges appropriate for the ingredients listed in Section 3. The respirator should be fitted to the employee by a professional. Ensure vapor cartridges are stored in sealed plastic bags when not being used.

# **General Hygiene Considerations**

Wash hands thoroughly with water and soap after handling.
